Morgan Group Holding Co.
Notes to Financial Statements

Note 1. Basis of Presentation

Morgan Group Holding Co. (“Holding” or “the Company”) was incorporated in November 2001 as a wholly-owned subsidiary of LICT Corporation (“LICT, formerly Lynch Interactive Corporation”) to serve, among other business purposes, as a holding company for LICT’s controlling interest in The Morgan Group, Inc. (“Morgan”). On January 24, 2002, LICT spun off 2,820,051 shares of Holding common stock through a pro rata distribution (“Spin-Off”) to its stockholders and retained 235,294 shares.

On October 3, 2002, Morgan ceased its operations when its liability insurance expired and it was unable to secure replacement insurance. On October 18, 2002, Morgan and two of its operating subsidiaries filed voluntary petitions under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the Northern District of Indiana, South Bend Division for the purpose of conducting an orderly liquidation of Morgan’s assets. On March 31, 2008, the bankruptcy proceeding was concluded and the bankruptcy court dismissed the proceeding. Holding received no value for its equity ownership from the bankruptcy proceeding.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2011 are not necessarily indicative of the results that may be expected for the year ending December 31, 2011. The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

Note 2. Significant Accounting Policies

The Company invests in marketable securities that are bought and held principally for the purpose of selling them in the near term and are classified as trading securities. Trading securities are recorded at fair value on the balance sheet in current assets, with the change in fair value during the period included in earnings.

Note 3. Income Taxes

The Company is a “C” corporation for Federal tax purposes, and has provided for deferred income taxes for temporary differences between the financial statement and tax bases of its assets and liabilities. The Company has recorded a full valuation allowance against its deferred tax asset of approximately \$1.7 million arising from its temporary basis differences and tax loss carry forward, as its realization is dependent upon the generation of future taxable income during the period when such losses would be deductible.

Pursuant to Sections 382 and 383 of the Internal Revenue Code, annual use of any of the Company’s net operating loss carry forwards may be limited if cumulative changes in ownership of more than 50% occur during any three year period.

Note 4. Commitments and Contingencies

From time to time the Company may be subject to certain asserted and unasserted claims. It is the Company’s belief that the resolution of these matters will not have a material adverse effect on its financial position.

The Company has not guaranteed any of the obligations of Morgan and believes it currently has no commitment or obligation to fund any creditors.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

On October 18, 2002, Morgan adopted the liquidation basis of accounting and accordingly, Morgan's assets and liabilities have been adjusted to estimate net realizable value. As the carrying value of Morgan's liabilities exceeded the fair value of its assets, the liabilities were reduced to equal the estimated net realizable value of the assets.

The Company currently has no operating businesses and will seek acquisitions as part of its strategic alternatives. Its only costs are the administrative expenses required to make the regulatory filings needed to maintain its public status. These costs are estimated at \$25,000 to \$50,000 per year.

Results of Operations

For the three months ended June 30, 2011, the Company incurred \$3,040 of administrative expenses down from \$3,489 of such expenses in the three months ended June 30, 2010. Lower accounting expenses offset, to some extent, by increased legal fees in 2011 caused the variance. For the six months ended June 30, 2011, the Company incurred \$19,479 of administrative expenses up from \$18,995 of such expenses in the six months ended June 30, 2010. Increased legal fees offset, to some extent, by lower accounting expenses in 2011 caused the variance.

In the Second Quarter of 2010, the company began to invest in marketable securities that are subject to a publicly disclosed acquisition offer but are trading below the proposed acquisition price. During the three months ended June 30, 2011, the Company recorded \$1,527 of net realized and unrealized gains from this activity as compared to \$1,190 in the comparable prior year period. During the six months ended June 30, 2011, the Company recorded \$5,938 of net realized and unrealized gains from this activity as compared to \$1,190 in the comparable prior year period. As noted, there was no activity in marketable securities in the three months ended March 31, 2010. The availability of such transactions, their timing, and overall movements in the securities markets caused the remaining variances.

As a result of this marketable security program, the Company also received dividend income of \$324 and \$552, respectively, for the three and six month periods ended June 30, 2011.

Interest income from the Company investment in a United States Treasury money market fund was \$13 during the three months ended June 30, 2011 as compared to \$36 during 2010 period, and \$48 during the six months ended June 30, 2011 as compared to \$98 during the comparable 2010 period. The variances resulted from lower investment balances in the Company's balances in this investment in 2011.

Liquidity and Capital Resources

As of June 30, 2011, the Company's only assets consisted of \$388,632 in cash and marketable securities and had a capital loss carry forward of approximately \$4.5 million which it expects will substantially expire in 2013. The ability to utilize this carry forward is dependent on the Company's ability to generate a capital gain prior to its expiration.

Off Balance Sheet Arrangements

None.

Item 3. Quantitative and Qualitative Analysis of Market Risk

The Company is a smaller reporting company as defined in Item 10(f)(1) of Regulation S-K and thus are not required to report the Quantitative and Qualitative Analysis of Market Risk specified in Item 305 of Regulation S-K.

Item 4. Controls and Procedures

a) Evaluation of Disclosure Controls and Procedures

Our Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the "Act")) as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures as of the end of the period covered by this report were designed and were functioning effectively to provide reasonable assurance that the information required to be disclosed by the Company in reports filed under the Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. The Company believes that a controls system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

(b) Changes in Internal Controls

During the period covered by this report, there have been no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our financial statements.

Forward Looking Discussion

This report contains a number of forward-looking statements, including statements regarding the prospective adequacy of the Company's liquidity and capital resources in the near term. From time to time, the Company may make other oral or written forward-looking statements regarding its anticipated operating revenues, costs and expenses, earnings and other matters affecting its operations and condition. Such forward-looking statements are subject to a number of material factors, which could cause the statements or projections contained therein, to be materially inaccurate. Such factors include the estimated administrative expenses of the Company on a go forward basis.
