PART I

Item 1. Business.

Morgan Group Holding Co. (the “Company” or “Holding”) was incorporated in November 2001 to serve, among other business purposes, as a holding company for LICT Corporation’s (“LICT”) controlling interest in The Morgan Group, Inc. (“Morgan”). On January 24, 2002, LICT spun off all but 235,294 of its shares in the Company to its stockholders.

On October 18, 2002, Morgan and two of its operating subsidiaries filed voluntary petitions under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the Northern District of Indiana, South Bend Division. On March 31, 2008, the bankruptcy proceeding was concluded and the bankruptcy court dismissed the proceeding. There was no appeal from the bankruptcy court’s dismissal of the proceeding, and that proceeding is now entirely ended. Morgan received no value for its equity ownership from the bankruptcy proceeding.

Effective November 1, 2012, Jonathan P. Evans was appointed as the Company’s Chief Executive Officer, replacing Mario J. Gabelli, who remains Chairman of the Board of Directors. On March 1, 2017, Mr. Evans resigned from the Company and was replaced by Robert E. Dolan, the Company’s Chief Financial Officer, as Acting Chief Executive Officer serving on an interim basis (see p. 17, below). Mr. Dolan also continues to serve as the Company’s Chief Financial Officer.

At December 31, 2017, the Company had \$17,273 in cash, \$4,995 in accounts payable, and a net operating loss carryover of approximately \$582,000. In order to obtain the liquidity needed to support the Company’s annual administrative costs, approximately \$50,000- \$70,000 per year. On March 19, 2018 the Company sold to LICT Corporation 1,500,000 of its common shares for \$180,000, or \$0.12 per share. These funds will be used to pay administrative costs for the next three years, until an acquisition candidate can be found and appropriate financing obtained.

We are continuing to evaluate all options available to the Company at this time. The Company is looking to implement a growth strategy by acquiring businesses based in the United States of an appropriate type and size. The execution of such a strategy may require the Company to obtain significantly more financial resources than it currently possesses. Those resources could take the form of a debt and/or equity offering, or potentially a hybrid instrument. There is no assurance that the Company can obtain adequate financial resources to successfully implement this strategy.

At present, we have no full-time employees.

Item 1A. Risk Factors

As of March 23, 2018, there were approximately 600 holders of record of the Company's common stock.

The Company has never declared a cash dividend on its common stock and its Board of Directors does not anticipate that it will pay cash dividends in the foreseeable future.

During the fiscal years ended December 31, 2017 and 2016, the Company did not repurchase any of its shares from its shareholders.

On March 19, 2018, the Company sold 1,500,000 shares of its common stock to LICT for a total consideration of \$180,000, or \$0.12 per share (the "Private Placement"). The securities issued to LICT were offered and sold in a private placement exempt from the registration requirements of the Securities Act of 1933, as amended, and under Section 4(a)(2) of the Securities Act and Rule 506 thereunder.

The proceeds from the Private Placement are intended to be used to fund the Company's administrative costs to maintain its public company reporting obligations for the next three years. During this time, the Company will continue to pursue a business combination. The Company currently has no plans, arrangements, commitments, agreements or understandings with any prospective target business concerning a business combination and may be unable to complete a business combination.

Mario J. Gabelli, one of the Company's director's, is also Chief Executive Officer and Chairman of the Board of Directors of LICT and Robert E. Dolan, the Company's other director, is Executive Vice President, Chief Financial Officer and Director of LICT. Following the Private Placement, Mr. Gabelli and LICT beneficially own, in the aggregate, approximately 49.1 % of the Company's outstanding common stock.

Item 6. Selected Financial Data.

We are a smaller reporting company as defined in Item 10(f)(1) of Regulation S-K and thus are not required to report the selected financial data specified in Item 303 of Regulation S-K.

Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operation.

Forward-Looking Statements and Uncertainty of Financial Projections

This report may contain “forward - looking statements”. Forward-looking statements are not based on historical information but relate to future operations, strategies, financial results or other developments. Forward-looking statements are necessarily based on estimates and assumptions that are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond our control and many of which, with respect to future business decisions, are subject to change. These uncertainties and contingencies can affect actual results and could cause actual results to differ materially from those expressed in any forward-looking statements made by, or on behalf of, us.

Overview

As of December 31, 2017, the Company’s only assets consisted of \$17,273 in cash and cash equivalents, and net operating loss carry forwards of approximately \$582,000. Under the Tax Cuts and Jobs Act of 2017, Federal net operating loss carry forward will not expire.

As noted above, the Company received \$180,000 on March 19, 2018, by selling 1,500,000 of its common shares at \$0.12 per share in a private placement to LICT.

The Company currently has no operating businesses and will seek acquisitions as part of its strategic alternatives. Its only costs are the expenses required to make the regulatory filings needed to maintain its public status and to find and evaluate potential acquisitions. These costs are estimated at \$50,000 to \$100,000 per year.

We are evaluating all options available to the Company at this time.

Results of Operations

For the year ended December 31, 2017, the Company incurred administrative expenses of \$55,118 versus \$56,896 in 2016. Administrative expenses decreased in 2017 from 2016 predominantly due to decreased expenses associated with potential acquisition activity of \$3,639.

During the year ended December 31, 2017, the Company earned \$216 from its investment in a United States Treasury money market fund as compared to \$191 during the year ended December 31, 2016.

Liquidity and Capital Resources

At December 31, 2017, we had \$17,273 in cash and cash equivalents as compared to \$64,461 in cash and cash equivalents at December 31, 2016.

On March 19, 2018 the Company sold in a private placement to LICT 1,500,000 shares of its common stock for \$180,000, or \$0.12 per share. These funds are intended to be used to pay administrative costs for the next three years, to allow the Company to search for an acquisition candidate and appropriate financing.

The Company has implemented a growth strategy to acquire US-based businesses of an appropriate type and size. The execution of such a strategy will require the Company to obtain significantly more financial resources than it currently possesses. Those resources could take the form of a debt and/or equity offering, or potentially a hybrid instrument. There is no assurance that the Company can obtain such financial resources to successfully implement this strategy.

The Company has sustained losses of approximately \$52,000 in 2017 and have used cash in its operations of approximately \$47,000. At December 31, 2017, the Company had a cash balance of approximately \$17,000. To date, the Company had sufficient cash on hand to fund its losses. Management has developed plans to preserve and increase cash flow in 2018. These plans include reducing operating costs and obtaining funding from the Company’s affiliate.

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2017 and 2016, and the results of its operations and its cash flows for each of the years in the two-year period ended December 31, 2017, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Morgan Group Holding Co.
Notes to Financial Statements

Note 1. Basis of Presentation and Significant Accounting Principles

Basis of Presentation

Morgan Group Holding Co. (“Company”) was incorporated in November 2001 as a wholly-owned subsidiary of LICT Corporation (“LICT”) to serve, among other business purposes, as a holding company for LICT’s controlling interest in The Morgan Group, Inc. (“Morgan”). On January 24, 2002, LICT spun off 2,820,051 shares of the Company’s common stock through a pro rata distribution (“Spin-Off”) to its stockholders and retained 235,294 shares.

On October 3, 2002, Morgan ceased its operations when its liability insurance expired and it was unable to secure replacement insurance. On October 18, 2002, Morgan and two of its operating subsidiaries filed voluntary petitions under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the Northern District of Indiana, South Bend Division for the purpose of conducting an orderly liquidation of Morgan’s assets. On March 31, 2008, and the bankruptcy court dismissed the proceeding and it was entirely concluded at that time. The Company received no value for its equity ownership from the bankruptcy proceeding.

Significant Accounting Principles

Liquidity

The Company has sustained losses of approximately \$52,000 in 2017 and has used cash in its operations of approximately \$47,000. At December 31, 2017, the Company had a cash balance of approximately \$17,000. To date, the Company had sufficient cash on hand to fund its losses. Management has developed plans to preserve and increase cash flow in 2018. These plans include reducing operating costs and obtaining funding from LICT. See Note 7-Subsequent Events.

Cash and Cash Equivalents

All highly liquid investments with maturity of three months or less when purchased are considered to be cash equivalents. The carrying value of a cash equivalent approximates its fair value based on its nature.

At December 31, 2017 and 2016 all cash and cash equivalents were invested in a United States Treasury money market fund, for which an affiliate of the Company serves as the investment manager.

Stock Based Compensation

During 2012, the Company issued stock options and warrants to two of the Company’s officers, see Note 5. The Company uses a fair value-based method of accounting for stock-based compensation provided to our employees. The estimated fair value of option awards on the grant date is determined using the Black Scholes option-pricing model. This sophisticated model utilizes a number of assumptions in arriving at its results, including the estimated life of the option, the risk-free interest rate at the date of grant and the volatility of the underlying common stock. There may be other factors which are not considered in the Black Scholes model, but which may have an effect on the value of the options as well. The effects of changing any of the assumptions or factors employed by the Black Scholes model may result in a significantly different valuation for the options. No options or warrants were granted during the years ended December 31, 2017 and 2016. The Company currently has no full-time employees.

Earnings per share

Basic earnings per share is based on the weighted-average number of common shares outstanding during each period. Diluted earnings per share is based on basic shares plus the incremental shares that would be issued upon the assumed exercise of in-the-money stock options and unvested restricted stock using the treasury stock method, if dilutive.

Table of Contents

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 2. Fair Value of Financial Instruments

The Company measures fair value as the selling price that would be received for an asset, or paid to transfer a liability, in the principal market on the measurement date. The hierarchy established by the FASB prioritizes fair value measurements based on the types of inputs used in the valuation technique. The inputs are categorized into the following levels:

Level 1 – Observable inputs such as quoted prices in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices that are observable, either directly or indirectly, for identical or similar assets and liabilities in active or non-active markets; or model-derived valuations or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liability.

Level 3 – Unobservable inputs not corroborated by market data, therefore requiring the entity to use the best available information, including management assumptions.

At December 31, 2017 and 2016, the Company's cash equivalents include money market securities. These securities are valued utilizing quoted market prices from identical instruments and are categorized in Level 1 of the fair value hierarchy.

At December 31, 2017 and 2016, there were no gross unrealized gains or losses.

Note 3. Investment in Morgan Group, Inc.

Upon Morgan's bankruptcy filing, the Company deconsolidated its investment, as the Company believes it no longer had controlling or significant influence. At December 31, 2007, the estimated value of Morgan's assets in liquidation was insufficient to satisfy its estimated obligations. On March 31, 2008, the bankruptcy proceeding was concluded, and the bankruptcy court dismissed the proceeding. The Company received no value for its equity ownership.

Note 4. Income Taxes

Deferred income taxes are determined based upon differences between financial reporting and income tax bases of assets and liabilities and are measured using the enacted income tax rates and laws that will be in effect when the differences are expected to reverse. The Company recognizes any interest and penalties to unrecognized tax benefits as a component of income tax expense.

No federal current or deferred income taxes were recorded for the years ended December 31, 2017 and 2016, as the Company's income tax benefits were fully offset by a corresponding increase to the valuation allowance against its net deferred income tax assets.

The Tax Reform Act of 1986 limits the annual utilization of net operating loss and tax credit carry forwards, following an ownership change of the Company. Note that as a result of the Company's equity financings in recent years, the Company underwent changes in ownership for purposes of the Tax Reform Act. Pursuant to Sections 382 and 383 of the Internal Revenue Code, annual use of any of the Company's net operating loss carry forwards may be limited if cumulative changes in ownership of more than 50% occur during any three year period.

[Table of Contents](#)

At December 31, 2017 and 2016, the Company had federal and state net current operating loss carry forwards of \$582,000 and \$530,000, respectively, available to offset future taxable income. The current net operating loss carry forwards for Federal income tax purposes will expire in varying amounts beginning 2023 through 2035. At December 31, 2017 and 2016, the Company had federal capital loss carry forwards of \$2,000 available to offset future taxable gains.

The components of income tax provision (benefit) are as follows:

| | December 31, | |
|--------------------------------------|--------------|-------------|
| | 2017 | 2016 |
| Current income taxes: | | |
| Federal | \$-- | \$-- |
| State | -- | -- |
| Total current income taxes | -- | -- |
| Deferred income taxes | 63,679 | (21,937) |
| Change in valuation allowance | (63,679) | 21,937 |
| Provision (benefit) for income taxes | <u>\$--</u> | <u>\$--</u> |

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the Company's net deferred income taxes are as follows:

| | December 31, | |
|---|----------------|----------------|
| | 2017 | 2016 |
| Current deferred income tax assets | \$-- | \$-- |
