Morgan Group Holding Co.
Notes to Condensed Financial Statements

Note 1. Basis of Presentation

Morgan Group Holding Co. (“Holding” or “the Company”) was incorporated in November 2001 as a wholly-owned subsidiary of LICT Corporation (“LICT”) to serve, among other business purposes, as a holding company for LICT’s controlling interest in The Morgan Group, Inc. (“Morgan”). On January 24, 2002, LICT spun off 2,820,051 shares of Holding common stock through a pro rata distribution (“Spin-Off”) to its stockholders and retained 235,294 shares.

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2019 are not necessarily indicative of the results that may be expected for the year ending December 31, 2019. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

Note 2. Significant Accounting Policies

All highly liquid investments with maturity of three months or less when purchased are considered to be cash equivalents. The carrying value of a cash equivalent approximates its fair value based on its nature.

At March 31, 2019, December 31, 2018, and March 31, 2018, all cash and cash equivalents were invested in a United States Treasury money market fund, of which an affiliate of the Company serves as the investment manager.

The Company may from time to time invest in marketable securities that are bought and held principally for the purpose of selling them in the near term and are classified as trading securities. Trading securities are recorded at fair value on the balance sheet in current assets, with the change in fair value during the period included in earnings.

Basic earnings per share is based on the weighted-average number of common shares outstanding during each period. Diluted earnings per share is based on basic shares plus the incremental shares that would be issued upon the assumed exercise of in-the-money stock options and unvested restricted stock using the treasury stock method and, if dilutive

Note 3. Fair Value of Financial Instruments

The Company measures fair value as the selling price that would be received for an asset, or paid to transfer a liability, in the principal market on the measurement date. The hierarchy established by the FASB prioritizes fair value measurements based on the types of inputs used in the valuation technique. The inputs are categorized into the following levels:

Level 1 – Observable inputs such as quoted prices in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices that are observable, either directly or indirectly, for identical or similar assets and liabilities in active or non-active markets; or model-derived valuations or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liability.

Level 3 – Unobservable inputs not corroborated by market data, therefore requiring the entity to use the best available information, including management assumptions.

At March 31, 2019, December 31, 2018, and March 31, 2018, the Company's cash equivalents included money market securities. These securities are valued utilizing quoted market prices from identical instruments and are categorized in Level 1 of the fair value hierarchy.

At March 31, 2019, December 31, 2018, and March 31, 2018, there were no gross unrealized gains or losses.

Note 4. Income Taxes

The Company is a "C" corporation for Federal tax purposes, and has provided for deferred income taxes for temporary differences between the financial statement and tax bases of its assets and liabilities. The Company has recorded a full valuation allowance against its deferred tax asset of approximately \$201,972 arising from its temporary basis differences and tax loss carryforward, as its realization is dependent upon the generation of future taxable income during the period when such losses would be deductible.

Pursuant to Sections 382 and 383 of the Internal Revenue Code, annual use of any of the Company's net operating loss carry forwards may be limited if cumulative changes in ownership of more than 50% occur during any three year period.

Note 5. Commitments and Contingencies

From time to time the Company may be subject to certain asserted and unasserted claims. It is the Company's belief that the resolution of these matters will not have a material adverse effect on its financial position.

Note 6. Shareholders' Equity

On March 19, 2018 the Company sold in a private placement to LICT, 1,500,000 of its shares common stock for \$180,000, or \$0.12 per share. These funds are intended to be used to pay administrative costs for the next three years, until an acquisition candidate can be found and appropriate financing obtained. The funds from the sale were received on April 3, 2018.

At the Company's Annual Meeting of Stockholders on May 8, 2014, its stockholders voted to amend the Company's Certificate of Incorporation (the "Charter Amendment") to increase the number of authorized shares of common stock, par value \$0.01 per share, from 10,000,000 to 100,000,000. In order to economize costs until necessary, the Company has not yet filed the Amended Certificate of Incorporation with its state of incorporation, Delaware, to effectuate the authorization.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The Company currently has no operating businesses and is seeking acquisitions as part of its strategic alternatives. Its only costs are the expenses required to make the regulatory filings needed to maintain its public status and to find and evaluate potential acquisitions. These costs are estimated at \$50,000 per year.

Results of Operations

Three Months Ended March 31, 2019 and 2018

For the three months ended March 31, 2019, the Company incurred \$23,356 of administrative expenses, a decrease of \$3,665 from the \$27,021 of administrative expenses for the three months ended March 31, 2018. The decrease was primarily due to decreased legal fees in 2019.

During the first quarter of 2019, the Company earned \$672 from its investment in a United States Treasury money market fund as compared to \$45 in the first quarter of 2018 due to higher average investment balances and higher interest rates in 2019.

Liquidity and Capital Resources

At March 31, 2019, the Company's principal assets consisted of cash and cash equivalents of \$114,307 as compared to \$129,635 at December 31, 2018.

On March 19, 2018 the Company sold in a private placement to LICT Corporation 1,500,000 shares of its common stock for \$180,000, or \$0.12 per share. These funds are intended to be used to pay administrative costs for the next three years, to allow the Company to search for an acquisition candidate and appropriate financing. The funds from this sale were received on April 3, 2018.

The Company has adopted a growth strategy to acquire US-based businesses of an appropriate type and size. The execution of such a strategy will require the Company to obtain significantly more financial resources than it currently possesses. Those resources could take the form of a debt and/or equity offering, or potentially a hybrid instrument. There is no assurance that the Company can obtain such financial resources to successfully implement this strategy.

Off Balance Sheet Arrangements

None.

Item 3. Quantitative and Qualitative Analysis of Market Risk

The Company is a smaller reporting company as defined in Item 10(f)(1) of Regulation S-K and thus is not required to report the Quantitative and Qualitative Analysis of Market Risk specified in Item 305 of Regulation S-K.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

Our Acting Chief Executive Officer/Chief Financial Officer has evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the "Act") as of the end of the period covered by this report. Based on that evaluation, the Acting Chief Executive Officer/Chief Financial Officer has concluded that the Company's disclosure controls and procedures as of the end of the period covered by this report were designed and were functioning effectively to provide reasonable assurance that the information required to be disclosed by the Company in reports filed under the Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. The Company believes that a controls system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

(b) Changes in Internal Controls

During the period covered by this report, there have been no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our financial statements.

Forward Looking Discussion

This report contains a number of forward-looking statements, including but not limited to statements regarding the prospective adequacy of the Company's liquidity and capital resources in the near term. From time to time, the Company may make other oral or written forward-looking statements regarding its anticipated operating revenues, costs and expenses, earnings and other matters affecting its operations and condition. Such forward-looking statements are subject to a number of material factors, which could cause the statements or projections contained therein to be materially inaccurate. Such factors include the estimated administrative expenses of the Company on a going-forward basis.
